

Start a new area of Gigabit network  
Breakthrough the network speed limit

1000Mbps CAT 6 Gigabit Ethernet cable

Upholstering fat cable | oxygen-free copper

Flat Ethernet cable, wiring without cutting

Freely wiring under the carpet, corner, beside the door, integrated with the environment.

1.47mm

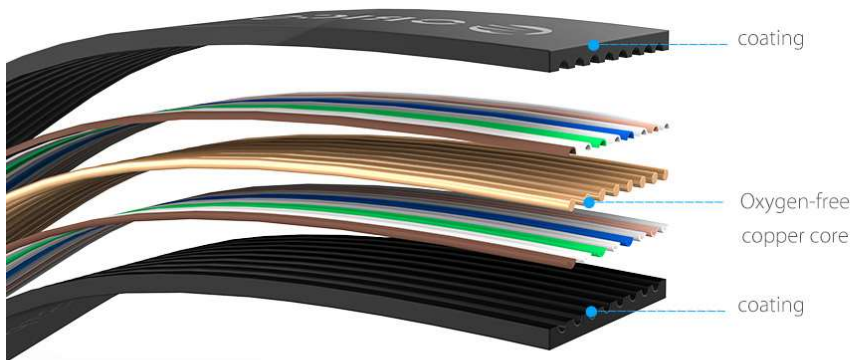

# Do not let bad Ethernet cable hinder you 1000Mbps bandwidth, enjoy Gigabit network era

Fiber optical network, better transmission  
performance than CAT 5 cable.

## No network speed attenuation 32AWG oxygen-free copper wire core

Oxygen-free copper is not easy to oxidate, 100 meters  
transmission without signal attenuation, durable.

# Gigabit speed is about to start

## 24K gold-plated pin

Modular plug with gold-plated conductive contacts, anti-interference and more stable.

Matel modular plug  
Long lifespan

KO

Common modular plug  
Short lifespan

# Enjoy movies fully and delightfully

Watching 1080P movie without buffer and waiting.

Note: the speed is related to the network controlling of network carrier.

# Play the game without delay

Stable network, no lags.

## Suitable for indoor and outdoor use

Double layer PVC, double protection, durable and reliable.

-  Waterproof
-  Sun block
-  Tensile
-  Freeze-resistant
