

Start a new area of Gigabit network

## Breakthrough the network speed limit

1000Mbps CAT 6 Gigabit Ethernet cable

Do not let bad Ethernet cable hinder you  
1000Mbps bandwidth, enjoy Gigabit network era

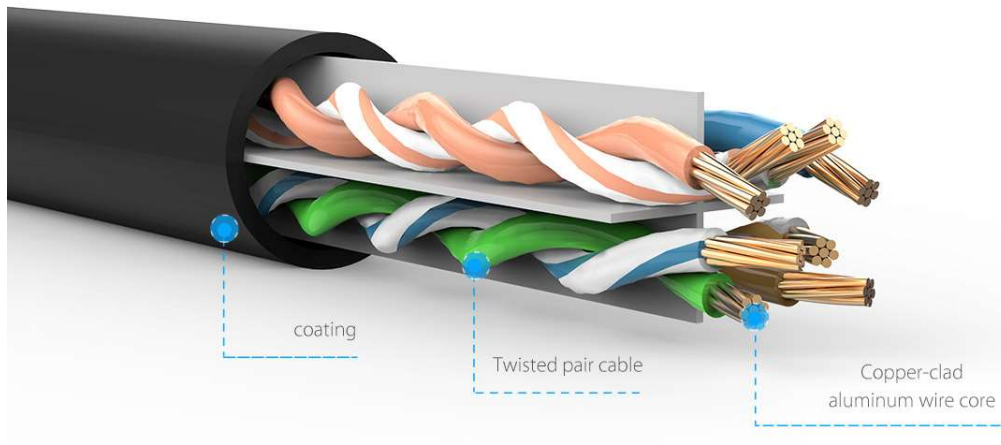

Fiber optical network,  
better transmission performance than CAT 5 cable.

## No network speed attenuation

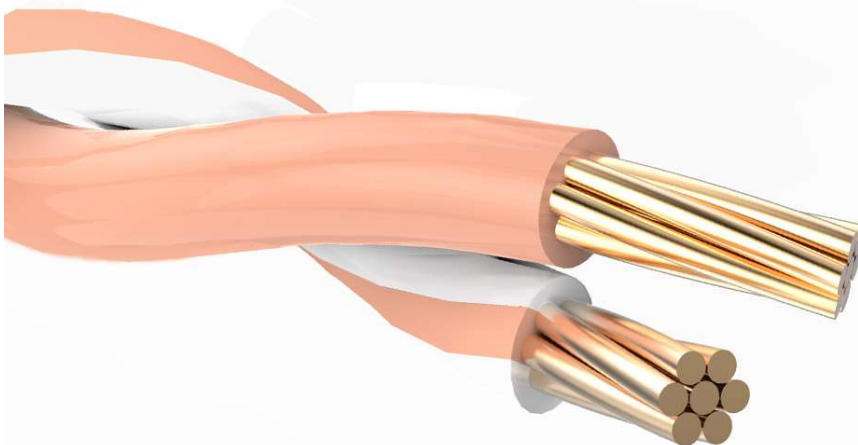

### 26AWG copper-clad aluminum wire core

26AWG copper-clad aluminum wire core is not easy to oxidate,  
100 meters transmission without signal attenuation, durable.

## Anti-interference twisted pair cable

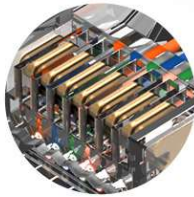

Two wires twisted clockwise to resist external electromagnetic  
interference and enhance transmission performance.

# Gigabit speed is about to start

## 24K gold-plated pin

Modular plug with gold-plated conductive contacts, anti-interference and more stable.

Metal modular plug  
Long lifespan

KO

Common modular plug  
Short lifespan

# Enjoy movies fully and delightfully

Watching 1080P movie without buffer and waiting.

Note: the speed is related to the network controlling of network carrier.

# Play the game without delay

Stable network, no lags.

## Suitable for indoor and outdoor use

Double layer PVC, double protection, durable and reliable.

Waterproof

Sun block

Tensile

Freeze-resistant
